BLIZZARD
GAMES™

Allow us to introduce you to the highest calibre titles available in the world today!!

We consistently set new standards in consumer software and offer the ultimate product mix masterfully created by our cutting-edge development houses.

Year after year our company has invested heavily in technology and staff, enabling us to evolve into one of the world's top 5 publishers.

This catalogue contains a sumptuous line-up of titles which are destined to follow the huge success of the No.1: StarCraft from Blizzard (Selling over 1 million units world-wide and counting) to USM 98 from the UK's very own Impressions, also hitting the number 1 spot here in the UK.

Grand Prix Legends from racing developer Papyrus looks set to forge a new standard in what is being described as the Quake of the driving genre. While 3D shooter Half-Life from Valve is destined to revolutionise it's genre.

It seems that the excitement never ends.

We sincerely hope that you enjoy using our software as much as we have had creating it!

Enjoy!

Gabriel Knight III

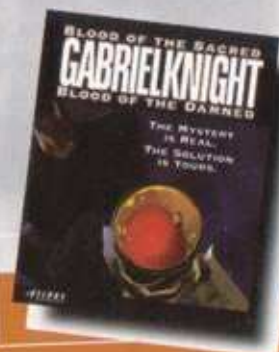

The mystery is real.
The solution is your's

This all-time adventure favourite now has a fully redesigned game engine generating realistic, real-time images. Jane Jensen, a master in game design, has created the story line, set in the unassuming French village of Rennes-le-Château, where insidious secret lies are buried. For generations, religious historians, researchers of the occult and avid treasure hunters have attempted to reveal the village's hidden truths.

When invited to France by an old family friend, Gabriel Knight begins to sense that this sleeping rural scene is less peaceful than it would seem. With his associate, Grace, Gabriel must rescue a missing heir and reveal secrets not only in the hills of France but in the lineage of Gabriel Knight himself.

- Over 35 highly detailed 3D animated characters in a real-time 3D-rendered world.
- Solve a real-life enigma involving the Holy Grail, the Knights Templar, and a society of vampires; and find the mysterious lost treasure of Rennes-le-Château.
- Multiple camera placement options give players the freedom to explore the realistic 3D environments and toggle between first-person and third-person points-of-view.

King's Quest: Mask of Eternity

Adventure gaming is not dead

King's Quest is the best-selling game series of all time, and Roberta Williams now goes beyond the brink of traditional gaming with this 8th instalment. The former 2D environments are gone, replaced by a full 3D universe offering the reality of an action game, the open-ended sense of adventure and exploration inherent in 3D worlds and the story telling talents of the author. *Mask of Eternity* returns you to the Kingdom of Daventry, where a destructive magical storm has turned the inhabitants to stone. In the role of Connor, players will need all their courage and skill to recover the five scattered pieces of the ancient *Mask of Eternity* destroyed by an evil sorcerer's greed for absolute power. The searchers straddle seven amazing lands as they unravel the mysterious power of the Mask and undertake the greatest quest of all.

- 7 immense worlds with unique characters to battle and interact with. Objects to collect, elements to explore, and challenging puzzles to solve.
- ThreeSpace 3D engine allows fluid real-time movement never before seen in an adventure game.
- Complete real-time 3D rendering of all game worlds and characters.

The latest and most ambitious episode in the classic award-winning Quest for Glory series

In this 5th episode of the now-classic series, our hero is plunged into a fabulous, mythological, Mediterranean kingdom. Your quest to become the new king can take one of four character classes: thief, wizard, warrior or paladin. Negotiate and battle your way through numerous locales of a meticulously-crafted 3D world in beautiful 16-bit colour featuring scrolling screens, changing camera perspectives, day-to-night shifts and stunning cinematic panoramas. With an integrated real-time combat engine, acrobatic life-like characters and evil adversaries all racing to seize the throne, combined with incredible replayability, *Dragon Fire* has certainly raised the bar for fans of epic quests, action, mystery, romance and intrigue! Choose your destiny now!

Quest For Glory V: Dragon Fire

- A limitless 3D world featuring 16-bit colour, scrolling screens, changing perspectives, shifts from day to night, and stunning panoramic backgrounds of Atlantis, Hades and the Greek isles.
- Real-time combat enhanced by lightning-quick acrobatics and a wide variety of weapons and spells.
- A visually and aurally stunning action-packed adventure with 1000's of hours of gameplay.

"...may become the biggest multi-player RPG phenomenon since Diablo."

The greatest role-playing game

Here is the sequence to *Betrayal at Krondor*, the best-selling RPG of all time. In best-selling author Raymond E. Feist's world of Midkemia, the player can act out five leading characters. Their quest leads them from the dizzying heights Krondor's place through the twisting tunnels of the sewers and under the city into the haunted depths of a temple, dedicated to an evil as ancient as the gods themselves. Players meet over 150 engaging characters during the game. The software features user-friendly smart cursors and a tactically complex 3D combat system, giving players a complete alchemy system to create 60 spells and potions. Built on Pyrotechnix's proprietary True3D engine, *Return to Krondor* provides dynamic real-time lighting and a host of special effects unequalled in RPGs.

Caesar III

Rome was not built in a day

"Impressions"

Software already excels in the city-building genre and now has an all-new version of one of Sierra's best-selling games.

Caesar III is a unique opportunity to create, maintain and expand an ancient Roman city either via a series of missions or "constraint-free" via the City Construction Kit.

16-bit colour graphics enliven the historically accurate structures. A rich, user-friendly management model will satisfy all strategy game fans. Compared to the highly popular *Caesar II*, both novices and experts will appreciate *Caesar III*'s single-screen management, increased interaction with citizens, new commerce models, clear game scenario and an improved user interface, in this new challenge to capture the dream of re-building one of the world's greatest cities.

- Build and rule on one level - no more switching between city, province and battle screens.
- Varied and historically-accurate structures.
- Intuitive interface and feedback: the real-time effects of the player's actions are immediately visible on screen.

Homeworld

The next dimension in space combat

Homeworld delivers cinematic-quality graphics, stunning special effects, brilliantly-rendered ships and an innovative "true 3D" interface. Players are free to view epic space conflicts from any position imaginable. Combining elements of space combat, strategic play and action, *Homeworld* is a totally fresh experience.

Its saga begins in the centre of a lush spiral galaxy. Since time immemorial, no one has challenged your peaceful existence. Then the conquerors came, overtaking your world, wiping out billions and relocating the survivors to a cold, lifeless planet on the rim of the galaxy. Now the time has come for your people to return home... A multiplayer mode option enables 8 players to compete via won.net, Sierra's free online game service or via an LAN. *Homeworld* also supports a variety of 3D graphic boosters.

E3* award

*Electronic Entertainment Expo in Atlanta (USA)

- Extraordinary 'true' 3D engine for a completely fresh real-time gaming experience.

Multiplayer

Up to 4 players, via modem, network or the Internet

SWAT 2 is the only police tactical simulation using actual SWAT tactics and real-time strategies allowing the player to personify the role of either SWAT officer or terrorist. Based on actual LAPD* SWAT call-ins, SWAT 2 offers a total of 30 missions in all, 15 for each side of the law. Advanced AI creates adversaries reacting to the players' strategies to produce a unique experience offering extraordinary re-playability. Choose from 100 actual LAPD SWAT officers or 100 terrorists - each with their own strengths and weaknesses. Fit out your team with weaponry, apparel and special vehicles and give them training and combat experience. With the multiplayer options, you can join up to three other players.

*LAPD: Los Angeles Police Department

Grand Prix Legends

The end of an era, the beginning of a legend

Based on the legendary 1967 season, *Grand Prix Legends* is the first-ever historical racing sim. Players vie in a realistic racing context markedly differing from that of modern-day sims - the race tracks of 1967 were far more exciting and dangerous than those found today. Famous drivers such as Graham Hill, teams like Lotus and Ferrari and the all-time racing circuit greats - Nürburgring, Monza and Monaco - all feature in the game - the first to embody a 3D virtual "cockpit" similar to those of the most recent flight simulators, allowing the player's view point to be "disconnected" from the cockpit graphic, taking the feel of driving to new heights: G-forces on the player's "head" convey bumps, elevation changes, cornering forces and even crashes! This state-of-the-art game gives you the most immersive racing experience ever!

- The next generation of racing simulations developed with a highly advanced physics engine.
- 3-D Physics and collisions: Cars tumble down the track, vault over barriers, explode into flames.
- Realistic 3D cockpit with fully animated polygonal driver.

BLIZZARD

ENTERTAINMENT

From hell's inferno to the outer reaches of the galaxy, Blizzard catapults gamers to the limits of their imagination.

Blizzard Entertainment began as a small development team in 1990 under the name of Silicon & Synapse. The now prestigious Blizzard brand name was adopted in 1994 when the company became a division of Davidson & Associates. Since then, Blizzard Entertainment has become one of the most revered editors in the industry, renowned for the impeccable quality of its games and its unflagging commitment to heightening the gaming experience. Blizzard products like WarCraft II, Diablo and innovations like Battle.net (the world's largest on-line gaming service) have revolutionised the way people play video games.

The degree of excellence that Blizzard achieves is undoubtedly due to the intense passion of its team members, be they designers, coders, artists or sound engineers, have to produce the finest video games available. Being serious gaming enthusiasts themselves they understand exactly what it is that makes a gamer tick. The results are spectacular, as proven by the immense popularity of Blizzard's products: StarCraft, Blizzard's latest release, has already sold over one million copies a mere 4 months after its release in April 1998! And fabulous new titles are already in the pipeline. Games like Brood War, the official Blizzard Expansion Set for StarCraft and Diablo II will be coming your way soon – and changing once again the way you play video games.

BLIZZARD

Strategy/real-time action

StarCraft

Set the fires of hell ablaze again

- Free game over the internet (excluding connection costs).
- Three races, possessing their own behaviour patterns and intelligence.
- Three battle grounds: in space, terrestrial, and covert.

StarCraft pushes back the frontiers of the real-time strategy genre and rockets you into space as commander of either the Terrans, the Protoss, or the Zergs. In these war-torn times, three of the most powerful forces in the universe are fighting for supremacy over the intergalactic space. The only way to win is to fight...

or the Internet (Battle.net)

The battle for galactic domination rages on with all-new scenarios, campaigns, units, settings, maps, music and cinematics

Brood War pits 3 races against each other for galactic domination in the *StarCraft* universe. In 3 all-new campaigns, players battle Kerrigan, an infested Terran striving to control the Zerg as they repel the Protoss survivors attempting to reunite with the Dark Templar. New human adversaries from the United Earth Directorate also invade the universe. This continuation of the war faces players with 24 all-new scenarios set in the 3 campaigns. The expansion set offers 6 new units with Lurkers, Valkyries and Dark Archons waging battle in the deserts and tundra of the Dark Templar's world. In the full version, up to 8 players can battle head-on. This enhancement to Blizzard's best-selling game also comprises of 100 multiplayer maps.

- The only expansion pack designed and created by Blizzard, the creators of *StarCraft*.
- 24 new scenarios.
- 3 new campaigns.

Diablo II

Set the fires of hell ablaze again

- Five all new characters with unique attributes and abilities, including an amazon, paladin and necromancer.
- An expanded world filled with all-new quests, weapons, spells, armour, monsters and non-playing characters.
- Advanced combat system, which incorporates class-specific fighting techniques and spells.

Blizzard Entertainment's much awaited sequel to Diablo; the game that set fire to the mortal realm. Now, Diablo has taken possession of the hero who defeated him and can continue his scheme to enslave humanity. By attempting to

free the other Prime Evils: Mephisto and Baal.

As Amazon, Sorceress,

Necromancer, Paladin or Barbarian, your quest is again to crush Diablo and his evil brethren, by venturing into their blazing hells. Features include 5 new character classes with unique abilities, 4 expansive realms and enhanced multiplayer functions (up to 8 players on Internet, through Blizzard's Battle Net technology, permitting multiplayer quests, trading posts, etc). *Diablo II* has powerful new weapons and magic, with an imaging system that creates a dynamic display of weapons, armour and item detail.

Multiplayer

Up to 8 players on Internet (Battle.net)

The creative solution for both home and office

The Sierra Home collection has everything you need to inspire your imagination and enhance your favourite hobbies: design your dream home, discover your ancestors, create your own letter head and cards or touch-up photographs. All Sierra Home titles are surprisingly simple to use and produce professional results.

Print Artist Plus

This monumental version of the renowned desktop publishing software offers you a choice of over 32 000 illustrations and 7000 photographs.

- Two added applications: COOL 3D for spectacular 3D animated texts and Kai's Power Goo.
- More than 1 500 layouts and templates, ready to print or customise in just a matter of minutes.
- Intuitive interface based on drop-down menus and icons.

There are no limits
to where your imagination
can lead!

PC CD-ROM
(minimum: Pentium 75,
Win 95, 8 MB RAM)

Genealogy

Generations

Your first interactive
family album!

Here at last is a genealogy program which is as powerful as it is easy to use! An amateur genealogist can be guided through the compilation of their interactive family album, whilst an experienced genealogist can make full use of the ready-to-customise models to create their masterpiece. Work done on other genealogy software can be imported into *Generations*, along with digitised photographs and other records.

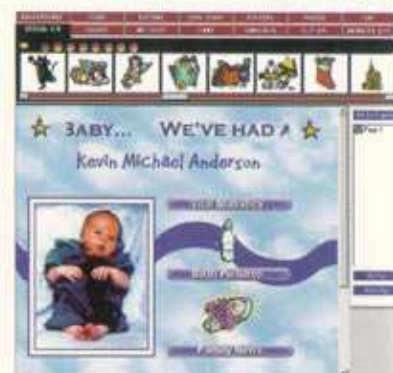

PC CD-ROM
(minimum: Pentium 75,
Win 95, 12 MB RAM)

- Simple to use with various models.
- Unlimited customisation options.
- A powerful research tool, complete with Internet links.

Web Artist

Make your own website in minutes

Build your personalised web site in minutes! *Web Artist* lets you design creative, fun and impressive web pages quickly and easily. Its simple drag and drop interface makes it a snap for users of all levels to build exactly the web site they want. Whether you're creating web pages for commerce or pleasure, *Web Artist* is the easy solution.

- Drag and drop means fun for the whole family. No HTML or programming experience is required.
- Hundreds of backgrounds, clip art, buttons, dividers, web icons, photos, sounds, graphic effects and more to spice-up any web page.
- Creates pages for Netscape and Microsoft Internet Explorer (versions 3.2 and 4.0).

PC CD-ROM (minimum : Pentium 60,
Win 95/98, 16 MB RAM)

Photo Artist

Do more with your pictures

Photo Artist is a complete integrated solution to easily capture, organise, enhance, print and share your photos. Create one of the many projects, then print it out, send it electronically to friends, or even post it on the Web!

- Endless creative projects: scrapbooks, greetings cards, awards, certificates, flyers, frames and reprints, labels, magazine covers, ornaments, postcards, and more.
- Hundreds of ways to electronically share your photos, including: multimedia slide shows, electronic postcards, screen savers, windows wallpaper, and web pages.
- Easily capture pictures downloaded from the web, scanned, taken with a digital camera, or developed onto floppy disks, *Photo Artist* supports most common file formats.
