Installing and Loading Willy Beamish

In an effort to make game installation as convenient as possible, we've created an install program that will automatically determine the graphics, sound, input devices and the speed capability of your computer system in order to optimize game characteristics. The install will also take you step-by-step through the process of installing your setup preferences. Don't be intimidated, just jump in and try!

Installing Willy Beamish

1. After booting, insert the Willy Beamish CD into your CD-ROM drive.
2. Type the letter of your CD-Rom drive followed by a colon (example: D:).
3. Type **Install** and then press **[enter]**.
4. Follow the on-screen instructions.

Setting Preferences

The install program will do its best in deciding what type of computer equipment you have, but sometimes it may make a mistake or you may wish to try other configurations. To modify the install program preferences, follow these steps:

1. Insert the Willy Beamish CD-ROM disk in your CD-ROM drive.
2. Type the letter of your CD-ROM drive followed by a colon (example: D:).
3. Type **Install** and then press **[enter]**.
4. From the installation Choices menu, you may select any option you wish to change.
5. Follow the on-screen instructions.

Loading/Running Willy Beamish

To run the game, type **WILLY** from the Dynamix hard disk directory.

Automated Hint Line System

You may reach the hint system by dialing: **1-900-370-KLUE**. Our California customers need to call: **1-900-370-5113**.

All hint questions **MUST** be directed to the above '900' numbers, as there will be **NO** hints given on our Customer Service lines. The Hint Line is available 24 hours a day. The charge for this service will be 75c for the first minute and 50c for every additional minute. Long distance charges are included in this fee. Callers under the age of 18 must get their parent's permission before calling the hint line. At this time, the automated hint system is only available within the United States.

The contents of the Sierra/Dynamix Automated Hint Line are solely the responsibility of Sierra On-Line and Dynamix, Inc. Thank you for buying Dynamix products.

Online Help System

Control Documentation is available from the electronic help system built into Willy Beamish. To access the help system, press the **ESC** key during game play. Use the arrow keys to move the cursor over the button marked  and press the spacebar.

CARE OF THE COMMON BULLFROG

By Prof. J. Arthur Toadsworth

The North American spotted bullfrog (*Bombina orientalis*) has long been regarded as a source for the unpleasant skin condition commonly known as warts. This assumption is not only medically invalid but also a grave disservice to a benevolent and helpful species. As any young boy can tell you, frogs are great fun and make excellent pets as long as you take a few basic steps to care for them. To keep your hoppers in good health you need to make

sure he stays moist and cool. Check his skin; if it's cold and slivery show your frog is probably in good condition. As for as food goes, frogs can eat almost any kind of insect but they are especially partial to ants and bees. You should try to feed your amphibian friend at least once a day, but he can go without food for several if he has to. It's also a good idea to let your web-

footed pal take a swim on a regular basis; it's good for his skin and will keep him in good spirits. A bath-tub-sized pool is ideal for your little green buddy to bask in. Following these guidelines will keep both you and your frog happy and healthy.

Local Boy Wins Regional Title

Thompson's own William J. Boush has won the women's regional title for the Nintari "Master Series" championships, qualifying him for the national championships to be held later this season. Boush's score of 2,349,997,186 was enough to beat his closest competitor by eighty thousand points. The Nintari Corporation plans to award the winner of the national

championships a scholarship and will feature him in several upcoming nationally-televised events. He will also receive a lifetime supply of video games, a lifetime supply of video games, a lifetime supply of video games, a lifetime supply of video games, a lifetime supply of video games. When asked the secret to his success, the nine-year-old Boush replied "I practice a lot and drink Slurpee cold while I play; it improves my reflexes."
