About This Manual

Welcome to the *FIELD & STREAM®*, *Trophy Big Game Hunting* Installation Guide. This booklet shows you how to get the game installed and running, and provides a brief overview. Once you start *FIELD & STREAM® Trophy Big Game Hunting*, you'll find several kinds of built-in help to answer any game play questions you might have:

- Press F1 or click **Help** to open the online manual for the *Trophy Big Game Hunting* game. This shows you how to get the most out of all the game features and windows.
- Select **Guide Services** from the Main Menu to open your multimedia big game hunting guidebook.
- For help with the World Opponent Network (won.net) with Internet games, refer to the **won.net** section of the online manual.

Installing and Starting the Game

Installing the Game

To fully install *Trophy Big Game Hunting*, you will need to perform two separate installations: one for **Trophy Bear** and one for **Trophy Hunting**. Follow the instructions below to install both portions of the game.

1. In Windows 95/98, insert the *FIELD & STREAM® Trophy Big Game Hunting* CD1 into your CD-ROM drive.
2. When the Autorun window appears, click on **INSTALL** and follow the on screen instructions. (If the Autorun window does not appear, click the Windows Start menu, and then click Run. In the Run dialog box, type D:\Install, where D is the letter of your CD-ROM drive, and click OK.)
3. When you're asked to choose the installation type, select **Trophy Bear**. You can choose to perform a **Full Install** for fast performance, or a **Standard Install** to use less disk space on your computer. (Regardless of your installation, you will always need to insert the Trophy Big Game Hunting CD 2 to play the game.)
4. Continue with the installation, following the on-screen instructions. You will have to restart your computer.
5. When your computer has finished restarting, insert the *Trophy Big Game Hunting* CD 1 again, and repeat instructions 2, 3, and 4 above, but this time select **Trophy Hunting** (either Full or Standard Install) for the installation type.

Note: If you only want to hunt elk, moose, and deer, you can install just the Trophy Hunting portion of the game. If you only want to hunt bear, you can install just the Trophy Bear portion of the game.

Starting the Game

1. Start Windows® 95/98, insert the *FIELD & STREAM® Trophy Big Game Hunting CD 2* into the CD-ROM drive.
2. When the Autorun window appears, start the game by clicking on the picture of the game species you'd like to hunt.

If the Autorun window doesn't appear, you can also start *Trophy Big Game Hunting* from the Windows Start menu, as described below:

1. In Windows 95/98, insert the *FIELD & STREAM® Trophy Big Game Hunting CD 2* into the CD-ROM drive.
2. Click Start, and point to Sierra.
 - To start Trophy Bear Hunting: point to the Trophy Bear Hunting folder, and then click the Trophy Bear Hunting icon.
 - To start Trophy Hunting, point to the Trophy Hunting folder, and then click the Trophy Hunting icon.

Note: *Trophy Big Game Hunting* normally uses hardware acceleration, or if the game graphics don't seem to work correctly in *Trophy Big Game Hunting*, try running the game using software acceleration only; follow the instructions directly above, but start Trophy Bear and Trophy

Hunting using the "Software" versions of the icons instead of the regular icons. See the README file for more information.

Additional Setup Help

During Installation, system tests are run to make sure your computer can run the game. If you still have problems, additional information may be found in the *Trophy Big Game Hunting* **README** file.

Multiplayer Game Setup

FIELD & STREAM®, Trophy Big Game Hunting supports two remote multiplayer game options. To use either of these options, each player must have the *FIELD & STREAM®, Trophy Big Game Hunting* CD installed and in the CD drive, as well as the appropriate hardware, described below.

Network Play: All players need to be connected to the same local area network (LAN), and on the same fileserver and subnet. *FIELD & STREAM®, Trophy Big Game Hunting* supports TCP/IP network protocol.

Internet Play: Each player needs an Internet browser that runs under Windows 95/98, and Internet access via modem or network.

FIELD & STREAM®

Trophy Big Game Hunting Overview

This section briefly introduces the game's main features. See the online Preview and Help in the game for complete information.

FIELD & STREAM®, *Trophy Big Game Hunting* is a big game hunting simulation based on real locations, real outdoor conditions, and real animal behavior. To succeed, you will need to consider the weather, season, ground conditions, and many other factors that affect how game species behave. What you learn by playing *FIELD & STREAM®*, *Trophy Big Game Hunting* and reading the "Guide Services" multimedia hunting reference will be equally useful on real hunting trips...and vice versa.

If you have already mastered the basic how-tos of big game hunting, you'll find plenty of new challenges in hunting the Medium and High skill levels, or Tournament hunting against the computer. The ultimate challenge is Tournament hunting against other expert hunters over a local area network, or on the Internet.

Getting Started

To start hunting right away, select "Quick Hunt" from the Main Menu. This takes you straight into the woods with everything you'll need. Press F1 or

click **Help** for quick information on how to navigate, find big game, and other topics.

To explore different skill levels, areas, and weather conditions, choose "Solo Hunt" from the Main Menu. Then select "Hunting Trip" and choose the settings you want.

When you're ready for more of a challenge, Single-Player Tournaments put you against simulated Pro opponents and tougher conditions. You'll need to have a pretty good grasp of the game's hunting controls, animal behavior, and gear selection to be competitive here. Try the "Guide Services" for hints.

"Career" mode allows a player to hunt with a different firearm over a series of seasons. Each season consists of a one-day hunt in each of the eight hunting areas with the same firearm. Your Boone and Crockett® scores are totalled for each season and a running career total is displayed to allow you to track your improvement over time.

The greatest test of your skills is Multiplayer games with human opponents over a network, or the World Opponent Network (won.net) Internet server. Tournaments are fast and frenzied contests where every hour counts. Weigh in with a prize trophy bear, and the bragging rights are all yours... at least until the next game starts.

Hunting Controls Quick Reference

1. General Controls

Esc	Exits Current Game
F2	Inventory Item #1
F3	Inventory Item #2
F4	Inventory Item #3
F8	Shows map in Full Screen Mode
V	Toggle Full Screen Mode (requires hardware acceleration)
B	Big Map
C	Camp Screen
O	Options
Space Bar	Raises and Lowers Firearm
Ctrl	Fires Firearm
Page Up	Look Up
Page Down	Look Down

There are two different modes when you're out on a hunting trip: Walking mode, just as it says, is when you're moving about the 3D hunting areas. In order to enter Shooting mode and raise your firearm, press the Spacebar or click the **Raise Firearm** icon on the Inventory toolbar. Then you can aim and take your shot by pressing the Ctrl key. It's important to remember that you can't walk while in shooting mode especially because it's an unsafe hunting practice.

2. Keyboard Controls: Walking Mode

Up Arrow	Walk Forward
SHIFT+Up Arrow	Run Forward
ALT+Up Arrow	Sneak Forward
Down Arrow	Walk Backward
SHIFT+Down Arrow	Run Backward
ALT+Down Arrow	Sneak Backward
Left Arrow	Turn Left - Large Increments
SHIFT+Left Arrow	Turn Left - Small Increments
ALT+Left Arrow	Sidestep Left
Right Arrow	Turn Right - Large Increments
SHIFT+Right Arrow	Turn Right - Small Increments
ALT+Right Arrow	Sidestep Right

3. Keyboard Controls: Shooting Mode

To enter shooting mode, press the spacebar.

Up Arrow	Aim Higher - Large Increments
ALT+Up Arrow	Aim Higher - Small Increments
Down Arrow	Aim Lower - Large Increments
ALT+Down Arrow	Aim Lower - Small Increments

Left Arrow	Turn Left - Large Increments
ALT+Left Arrow	Turn Left - Small Increments
Right Arrow	Turn Right - Large Increments
ALT+Right Arrow	Turn Right - Small Increments

3. **Mouse Controls: Walking and Shooting Mode**

To move throughout the 3D world using your mouse, simply left click in the 3D window and the cursor will disappear. To move forward, push the mouse forward. To turn left or right, just slide the mouse to either direction. To go backward, (you guessed it) pull back on the mouse.

While in mouse movement mode, you can *raise and lower the firearm by right clicking* on the mouse. While the firearm is raised, you can *fire by left clicking* on the mouse. To click on any interface buttons (such as inventory items) you must lower the firearm (right click) and then left click. The cursor will reappear which you can then use to select the appropriate button. Simply left click on the 3D window again to return to mouse movement mode. It becomes quite simple after a short time.

Keyboard Controls: Mouse View

To enter Mouse View, click mouse cursor on the game window. (Hot Key M)
You can change your selection from mouse view to mouse move in the

customizable controls in the options screen.

Mouse up	Hunter's head looks up
Mouse down	Hunter's head looks down
Mouse right	Hunter's head looks/moves right
Mouse left	Hunter's head looks/moves left

Up Arrow	Walk Forward
SHIFT+Up Arrow	Run Forward
ALT+Up Arrow	Sneak Forward

Down Arrow	Walk Backward
SHIFT+Down Arrow	Run Backward
ALT+Down Arrow	Sneak Backward

Number pad 1	Sidestep left
Number Pad 3	Sidestep right
