You may copy it onto a computer for your own personal use and you may make back up copies of the software to protect your software against loss. This software may be used by more than one person, and may be freely moved from one computer location to another **provided that there is no possibility of the software being used at one location or on one computer while it is being used at another**. The software can not legally be used by two different people in different places at the same time. You may not modify, network, rent, lease, loan, distribute the software or create derivative works based upon the software in whole or in part, and you may not electronically transmit the software from one computer to another or over a network.

This End User License Agreement grants you a limited license to use the Redistributable Code licensed to Sierra On-Line, Inc. by Microsoft Corporation, Inc. together with Microsoft operating system products. All intellectual property rights in Microsoft's Redistributable Code contained in this product belong exclusively to Microsoft Corporation, Inc.

Limited Warranty

Sierra warrants the diskette(s) to be free of defects in materials and workmanship for a period of 90 days from the date of purchase. Sierra On-Line's entire liability and your exclusive remedy will be replacement of the disk .

SIERRA ON-LINE SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This limited warranty gives you specific legal rights; you may have others which may vary from state to state. Some states do not allow the exclusion of incidental or consequential damages, or the limitation on how long an implied warranty lasts, so some of the above may not apply to you.

Installing Casino Deluxe

1) Insert the Casino Deluxe CD into your CD-ROM drive.

for **Windows 95** users:

2) *If the* Autoplay *feature is enabled, a panel will automatically appear on your screen.*

3) *If Autoplay is not active, double click on the* My Computer *icon on your desk top and click on the CD-ROM drive (usually D) to access the panel.*

for **Windows 3.1** users:

2) *From the* Program Manager, *select* **Run** *from the* File *menu.*

3) *In the box that appears, type the letter of your CD-ROM drive, followed by a colon, then \SETUP.EXE and press the <Enter> key on your keyboard. For example, if your CD-ROM drive is your D drive, you would type D:\SETUP.EXE and press <Enter>.*

4) Follow the onscreen instructions. During the installation, you will be given two options: you may either install the entire game to your hard drive, or you may install only part of the game, the rest being accessed from the CD as you play. If you install the entire game ("Hard Disk Copy"), it will take up about 30 megabytes of space on your hard drive. If you install part of the game ("CD resident"), the installed portion will take up about 4 megabytes of space. *If you choose partial installation, make sure the game CD is in your CD-ROM drive whenever you play the game or view the strategy supplements.* Full installation may result in faster gameplay.

Once you enter the game, you will see an introductory sequence. Click your mouse if you would like to skip through the screens. The computer will ask you if you would like to begin a new game or load a saved game. If this is your first time at Casino Deluxe, select **New**. If you would like to continue a previously saved game, select **Load**, and choose your saved game from the box that appears.

You will then find yourself in the lobby of Casino Deluxe. To begin, click on the elevator doors (or select **Go To Elevator** from the menu bar), and then select the button for the game you wish to play (or select **Choose Game** from the menu bar). To exit Casino Deluxe from the lobby, click on the glass doors (or select **Exit Casino Deluxe** from the *File* menu).

For general game instructions, select **How to Play** from the *Help* menu in the lobby. Consult the *Help* menu in each game for specific instructions.

To save a game, select **Save Game** from the *File* menu, and type a name for your game in the box that appears. Make sure your game has an extension of ".sav" (example: **mygame.sav**).
